## E.C. Killin Elementary School

May 10<sup>th</sup> 2024 / 4<sup>th</sup> QTR

### Weekly Message:

Dear Gecko Families,  
Yesterday, the Foster Base librarians came to EC Killin during lunch to speak to our students about the summer reading program available through the base.

The program encourages students to read thirty minutes a day to help students from falling into a summer slide. The program offers incentives to encourage participation.

This month is Asian and Pacific Heritage Month. The month of May is dedicated to paying tribute to the generations of Asian and Pacific Islanders who have enriched America's history and are part of its future success.

Gordon Lyn-Cook  
EC Killin Principal

## ECK Health Corner-School Nurse News

Dear parents, guardians, and care takers,

Welcome to E.C. Killin Elementary School. My name is Nurse Manrique. I am here to work with you and your child/children to ensure a smooth and healthy school year 2023-2024. Please contact me with any medical questions or concerns. I am here to assist in any way that I can as a school nurse. With good communication between us, I can ensure my best care to your child and other children that are around your child. Please keep your child at home if they are not feeling well. Let's prevent spread of infectious disease by encouraging your kids to wash hands often, stay home when sick, teach good respiratory etiquette, and sanitize workspace regularly. Together we can keep our Gecko Families safe and healthy!

Respectfully,  
EunJu Manrique@dodea.edu Okinawa, Japan

**Asthma in Kids**

Asthma is the most common chronic disease of childhood.

In an average classroom of 30 kids, about 3 have asthma.

About 4 in 10 children who wheeze when they get colds or respiratory infections will be diagnosed with asthma.

An estimated 5 million children in the U.S. have asthma.

Among all U.S. children, asthma affects about:

- 11% of all children living in poverty
- 11% of all boys ages 5-14
- 14% of all Black children

[https://www.cdc.gov/asthma/pdf/asthma\\_brochure.pdf](https://www.cdc.gov/asthma/pdf/asthma_brochure.pdf)

Each year, children with poorly managed asthma have more than:

- 10 million missed school days
- 74,000 hospital stays
- 767,000 trips to the emergency room

Children with asthma may experience:

- Coughing
- Wheezing
- Chest tightness
- Shortness of breath

If your child has asthma...

Work with their healthcare provider to:

- Develop an asthma action plan
- Identify and avoid triggers
- Take medicines as prescribed
- Watch for any changes

Share the asthma action plan with your child's caretakers and school.

Your child can lead a full and active life with proper asthma management.
